1. On 9 August 1950 about 40 single-engine, low-wing monoplanes were parked in two rows on the northern edge of the Doeberitz-Elstal (N 53/Z 65) airfield and another 40 planes of the same type were in front of the hangars on the southern edge of the field. (1)

- (1) Comments.
The occupation by about 80 planes approximately agrees with information of 4 August 1950 [redacted] The planes are probably IL-10s which indicates that the field is still occupied by ground attack regiments.
